# Your Signature Themes

SURVEY COMPLETION DATE: 12-28-2011

John Collins

---

Many years of research conducted by The Gallup Organization suggest that the most effective people are those who understand their strengths and behaviors. These people are best able to develop strategies to meet and exceed the demands of their daily lives, their careers, and their families.

A review of the knowledge and skills you have acquired can provide a basic sense of your abilities, but an awareness and understanding of your natural talents will provide true insight into the core reasons behind your consistent successes.

Your Signature Themes report presents your five most dominant themes of talent, in the rank order revealed by your responses to StrengthsFinder. Of the 34 themes measured, these are your "top five."

Your Signature Themes are very important in maximizing the talents that lead to your successes. By focusing on your Signature Themes, separately and in combination, you can identify your talents, build them into strengths, and enjoy personal and career success through consistent, near-perfect performance.

## Learner

You love to learn. The subject matter that interests you most will be determined by your other themes and experiences, but whatever the subject, you will always be drawn to the process of learning. The process, more than the content or the result, is especially exciting for you. You are energized by the steady and deliberate journey from ignorance to competence. The thrill of the first few facts, the early efforts to recite or practice what you have learned, the growing confidence of a skill mastered—this is the process that entices you. Your excitement leads you to engage in adult learning experiences—yoga or piano lessons or graduate classes. It enables you to thrive in dynamic work environments where you are asked to take on short project assignments and are expected to learn a lot about the new subject matter in a short period of time and then move on to the next one. This Learner theme does not necessarily mean that you seek to become the subject matter expert, or that you are striving for the respect that accompanies a professional or academic credential. The outcome of the learning is less significant than the "getting there."

## Responsibility

Your Responsibility theme forces you to take psychological ownership for anything you commit to, and whether large or small, you feel emotionally bound to follow it through to completion. Your good name depends on it. If for some reason you cannot deliver, you automatically start to look for ways to make it up to the other person. Apologies are not enough. Excuses and rationalizations are totally

---

unacceptable. You will not quite be able to live with yourself until you have made restitution. This conscientiousness, this near obsession for doing things right, and your impeccable ethics, combine to create your reputation: utterly dependable. When assigning new responsibilities, people will look to you first because they know it will get done. When people come to you for help—and they soon will—you must be selective. Your willingness to volunteer may sometimes lead you to take on more than you should.

## Relator

---

Relator describes your attitude toward your relationships. In simple terms, the Relator theme pulls you toward people you already know. You do not necessarily shy away from meeting new people—in fact, you may have other themes that cause you to enjoy the thrill of turning strangers into friends—but you do derive a great deal of pleasure and strength from being around your close friends. You are comfortable with intimacy. Once the initial connection has been made, you deliberately encourage a deepening of the relationship. You want to understand their feelings, their goals, their fears, and their dreams; and you want them to understand yours. You know that this kind of closeness implies a certain amount of risk—you might be taken advantage of—but you are willing to accept that risk. For you a relationship has value only if it is genuine. And the only way to know that is to entrust yourself to the other person. The more you share with each other, the more you risk together. The more you risk together, the more each of you proves your caring is genuine. These are your steps toward real friendship, and you take them willingly.

## Analytical

---

Your Analytical theme challenges other people: “Prove it. Show me why what you are claiming is true.” In the face of this kind of questioning some will find that their brilliant theories wither and die. For you, this is precisely the point. You do not necessarily want to destroy other people’s ideas, but you do insist that their theories be sound. You see yourself as objective and dispassionate. You like data because they are value free. They have no agenda. Armed with these data, you search for patterns and connections. You want to understand how certain patterns affect one another. How do they combine? What is their outcome? Does this outcome fit with the theory being offered or the situation being confronted? These are your questions. You peel the layers back until, gradually, the root cause or causes are revealed. Others see you as logical and rigorous. Over time they will come to you in order to expose someone’s “wishful thinking” or “clumsy thinking” to your refining mind. It is hoped that your analysis is never delivered too harshly. Otherwise, others may avoid you when that “wishful thinking” is their own.

## Significance

---

You want to be very significant in the eyes of other people. In the truest sense of the word you want to be recognized. You want to be heard. You want to stand out. You want to be known. In particular, you want to be known and appreciated for the unique strengths you bring. You feel a need to be admired as credible, professional, and successful. Likewise, you want to associate with others who are credible, professional, and successful. And if they aren’t, you will push them to achieve until they are. Or you will move on. An independent spirit, you want your work to be a way of life rather than a job,

---

and in that work you want to be given free rein, the leeway to do things your way. Your yearnings feel intense to you, and you honor those yearnings. And so your life is filled with goals, achievements, or qualifications that you crave. Whatever your focus—and each person is distinct—your Significance theme will keep pulling you upward, away from the mediocre toward the exceptional. It is the theme that keeps you reaching.
